

Lily's Adventure in Beacon Hospital

Lily is going to have an adventure today - she is going to **Beacon Hospital** to have her sore eye made all better again!

Lily has brought her favourite pyjamas and teddy bear.

Lily could not have breakfast today but Mommy promises her some ice cream tomorrow!

Lily says hello to the nice special children's Nurses,
Liz and Clodagh.

They show her all the lovely toys they have here!

Liz is taking Lily's temperature
to see how warm she is.

There are other boys and girls in Beacon Hospital too. Michael is here to have his tonsils out so that his throat doesn't hurt anymore.

Clodagh is giving him a special bracelet with his name and age

Now Lily is having her blood pressure taken – this special armband will tell her how big her muscles are!

It blows up like a balloon and can feel a little bit tight – but only for a minute!

Clodagh is weighing Michael on the weighing scales.

He eats his dinner every day
so he is getting big and heavy!

When the Doctor is making her better, in a room called a theatre, Lily will wear special pyjamas (a bit like a long dress) and a very funny hat!!

Her new friend
Michael is wearing a
funny hat too!!

There are lots of nice Doctors in Beacon Hospital,
including the *Getting Better Doctor*
who makes you well and the *Sleepy Doctor*
who helps make you sleepy while you are
wearing your funny pyjamas and hat.

This is Mark. The Doctor has put a little straw called a cannula into his arm. Liz and Clodagh can give Mark special medicine through the straw.

When it is time for Lily to go to the theatre, her Mommy goes too.

Lily is wearing a special mask over her mouth and nose. The mask smells like strawberries!

The Sleepy Doctor is very nice and is giving Lily some special medicine.

Maybe Teddy would like some medicine too!

Now Lily is waking up again and is helped by the
Wakey Up Nurse.

Lily is wearing a patch on her eye – just like a pirate!

Sometimes children need to stay overnight in hospitals. Mark is sleeping in a nice big bed.

He has a special big straw in his arm where magic water comes in to keep him well while he is not eating. It is cool.

His Daddy is sleeping over too, right beside him! Daddy is reading Mark lots of stories!

Lily is hungry...
she and Mommy eat tea and toast!

Michael is having cornflakes
after his visit to theatre!

Lily and her new friends wave goodbye to the

The nice Nurses and Doctors in Beacon Hospital
