Beacon HealthCheck

It might just change your life

Health screening is a proactive approach to your personal wellbeing. It can assist by identifying, and thus reducing the risk to your health posed by conditions such as heart disease, stroke, diabetes and more.

You will be tended to by an experienced multi-disciplinary team of medical professionals, all with access to the most advanced diagnostic technology.

A detailed personalised report will follow in the days post HealthCheck. This report will include interpretation of your test results as well as behaviour and lifestyle modification advice.

Should any of your results indicate that further investigation is required, your HealthCheck physician will discuss these with you. They will provide you with all necessary information and advice on the next steps to take including referral to an appropriate specialist.

If you would like your report sent to your General Practitioner, this can also be arranged.
